Proclamation by the Governor of Missouri.

Jeyrmson Cerv. August 26.—The following proclamation has been issued:

The power of the civil anthorities being in sufficient to protect the lives and property of citizens of the State, I, Hamilton R. Gamble, I Governor of the State of Missouri, de harroly call into the active service of the State forty two thousand men of the militia of the State, assigning six thousand as the quots for such military district, which is the same as a Congressional district. The force thus called into aervice will be as far as possible a volunteer force, and will consist of 10,000 cavalry and 32,000 infantry. If the number volunteering should exceed this requisition, the excess will be held as a reserve corps.

If thereshould be a deficiency, it may become necessary to resort to draft. The Adjutant General will issue to the Division Inspectors of the several military districts the orders necessary to carry this requisition into effect. The force called out will be for six months, unless peace in the State shall be mooner restored.—

Imparting to it an unequied gloss and brilliancy, making it soft and silky in its texture, and causing it to cut' readily.

The great celebrity and increasing demand for this unequaled preparation, convinces the proprietor that one trial is only necessary to satisfy a discerning public of its superjor qualities over any other preparation in use. It cleanaes the head and scalp from dandruff and other cutaneous diseases, causing the half to grow hauriantly giving it a rich, soft, glossy and fexible appearance, and also, where the hair is loosening and thinning, it will give strength and vigor to the roots and restors the growth to hose parts which have become hald, causing it to yield a resh covering of hair.

There are hundreds of fadies and gentlemen in New York who have had their hair restored by the use of this Invigorator, when all other preparations have failed. L. M. has in his possession letters innumerable testifying to the above facts, from persons of the highest reducetability. It will effectually prevent the hair from turning until the latest period of life; and in cases wherethe hair has already changed its color, the use of the Invigorator will with certainty restore it to it to its original hue, giving its dark, glossy appearance. As a perfume for the toilet and a Hair Restorative it is particularly recommended, having an agreeable fragrance; and the great facilities it affords in dressing the hair, which, when moist with the Invigorator, can be dressed in any required form so as to preserve its place, whether plainlor in curls; hence the great demand for it by the halles as a standard toilet article which none ought to be without, as the price places it within the reach of all, being No care or expense has been spared to make the work cerfect and reliable in all respects. It has now the Legislative sanction, having been approved by nearly the unanimous vote of both Houses, and was ordered to be distributed to the following Brata and County officers:

Governor, Attorney General, Supreme Judges, Secre-Governor, Attorney General, Supreme Judges, Secretary, Comptreller, Treasurer and Auditor of State, and
to the Probate Courts, Courts of Common Pleas, Superfor and Police Courts, Auditors, and the Clerks of the
various Courts in each county, to the Members of the
Senate and Heuse of Representatives of this State, and
the Governers of the several States of the Union.

L. MILLER would call the attention of Farents and Guardians to the use of his Invigorator, in cases where the children's hair inclines to be weak. The use of it lays the foundation for a good head of heir, as it removes any impurities that may have become connected with the scalp, the removal of which is necessary both for the health of the child, and the future appearance of its Hair. Inasmuch as very many changes have been made in the Statutes since the publication of the last editions, by repeal, alterations and additions, and many important decisions have been given by the Supreme Court on controverted points, all
